Audit response - CarePath access logging
Document GOV-CAREPATH-014 Version 1.0 Owner: Information Governance Lead
Date: 2026-09-12

The 2025 audits found the network could not list who opened a record and why. CarePath records every access with a stated reason (BR-05, REG-01).
The signed attestation is on the next page.

Attestation

I confirm the access log is reviewed monthly and exceptions are reported to the board.

Signed: Information Governance Lead
